

# SCMA-KSA KOREA CONFERENCE 2018

## MARITIME ARBITRATION IN ASIA

Asia accounts for about 70% of global container throughput handled by the world's top 30 container ports and 9 of the world's 10 busiest container ports are in Asia. Despite the current challenging headwinds faced by the maritime industry, Asia is expected to continue to drive global shipping in the coming years. With the rise of maritime activities in Asia, disputes will inevitably follow.

Join us for this Conference, jointly organised by SCMA and KSA, as leading practitioners share the developments of maritime arbitration in Singapore and Korea, and their experiences on effectively handling shipping disputes.
